Amazing Apples
Where do my apples come from?

An ‘Apple a day keeps the doctor away’ isn’t just a fun saying, it is actually true! Apples help keep your teeth shiny and white, your heart nice and healthy and boost your immune system! What’s not to love?

Apples grow on apple trees and are farmed in what is called an ‘orchard.’ Apples are one of the most widely grown tree fruits in the world. Millions of tonnes of apples are grown every year.

The apple tree originated in Central Asia. Honey bees are commonly used to pollinate apple trees.
